

COURSE NUMBER: 12308
COURSE TITLE: ASP.Net
INSTRUCTOR: David Totten

DESCRIBE WHAT YOU LIKED MOST ABOUT THIS COURSE:

Course was comprehensive and covered a lot of ground – labs were very instructive//It was short and provided a lot of information about the topic. This was my first experience with object oriented programming.//3 week course//Learning the specific basics as outlined in the course description – extremely (material) was relevant to my job//Very good examples, good resources – videos etc.

LIST ANY SUGGESTIONS YOU HAVE FOR IMPROVING THIS

COURSE: Lab equipment stability and consistency/persistence – problem with projector caused loss of time – reboot causes loss of data, databases, etc. (should tell people to use D: only)//I like the course the way it is//Have a folder on the LAN for all PPT & lab code required.
