RESPONSE: N/A

RESPONSE: N/A

RESPONSE: Useful application of material learned.

RESPONSE: Obviously, Windows XP is the best version of Windows yet and its gonna be around for a while(?) (Don't know how Vista will catch on)

**Question What did you find LEAST valuable about this course? Please tell us why.:**

RESPONSE: N/A

RESPONSE: N/A

RESPONSE: N/A

RESPONSE: N/A

RESPONSE: No fluff really -- not long enough for any.

**Question How do you think we could improve this course? (Please be specific about any item that did not rate at least a "4"):**

RESPONSE: N/A

RESPONSE: N/A

RESPONSE: Computers in lab should be set up with out of the box XP Pro, not with the standard CTU tweaks.

RESPONSE: I think for this class the computers may need to be left on Windows XP theme, not classic. I do undersatand that they are all the same, maybe that is a good thing so we know how to switch or either get to a setting multiple ways.

RESPONSE: one extra evening
